Center for Self Governance Statement: **STATEMENT OF PURPOSE**

To Whom It May Concern,

June 12, 2019

The Center for Self Governance (CSG) does not teach, practice, or support (1) any racial or religious supremacy, (2) confrontational civics or politics of any right or left-wing partisan spectrum, or (3) any right or left-wing violence for the advancement of any political, social, religious, or economic change.

CSG teaches 'cooperative' federalism (i.e. 'marble cake') and 'dual' federalism (i.e. 'layer cake') as our primary public effort to promote systematic politics through civics education.

We do not discriminate or limit participation in our training based on partisan affiliation, sexual orientation, religious preference, or socio-economic status. Our goal is to advance civic dialogue, increase collective political skill-sets, and promote responsible government of more stability for all natural born persons.

Yours Humbly and Mutually Pledged,
